

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims

Claims 1 - 46. (Previously cancelled)

Claim 47 (currently amended). A method of coordinating services among a paying organization, customers of the paying organization, and a plurality of service providers ~~utilizing a computer system, comprising the steps of:~~

providing a computer database of service providers, the computer database including location and pricing information relating to each service provider, pricing criteria of the organization, and any supplemental inducements offered by certain of the individual service providers;

receiving from individual service providers on an ongoing basis data regarding availability of supplemental inducements for a particular service provider, and updating the computer database with current supplemental inducement data;

obtaining service need information concerning a customer of the paying organization, including location of the service need;

generating by means of a computer system a preliminary list of service providers selected from the computer database matching the customer's service need and location and satisfying the pricing criteria of the organization;

generating by means of a computer system a final list of service providers as a subset of the preliminary list, comprising a plurality of service providers having the most favorable supplemental inducements that may be applicable;

ranking by means of a computer system the final list of service providers employing one or more criteria including time interval since last service performed by each service provider; and

presenting, in order of ranking, at least one of the ranked service providers to the customer for choice to perform the service.

Claim 48 (previously presented). The method of claim 47, wherein the service provider ranking is conducted by:

identifying the last date on which the service providers were assigned a service job when the customer had no repair shop preference; and

ranking the service providers by the last service job date, with the most recent service date ranked last.

Claim 49 (previously presented). The method of claim 47, including billing the organization a fixed fee for each service coordination transaction.

Claim 50 (previously presented). The method of claim 49, wherein the organization is at least one insurance company and the customer is a policyholder of said at least one insurance company.

Claim 51 (previously presented). The method of claim 47 wherein the service is repair service.

Claim 52 (previously presented). The method of claim 51 wherein the repair service is automobile repair service.
